

Someone let the shelter dogs out! Friends of Strays is proud to announce its new **Doggy Day Out** program, which pairs members of the community with our shelter dogs for field trips. Outings can last anywhere from an hour to all day, and can include a hike, a trip to the beach, a nap in a home or even a nice dinner in a pet-friendly restaurant. It's a great way for people to get their pet-fix in and to give our dogs a break from the shelter and learn more about their wonderful personalities!
