2023 IN STORIES

Mousetrap came to us after she was found with her tiny little paw stuck in a trap. Sadly she lost her paw due to the damage it sustained for being caught, but made an otherwise full recovery. She was one of 222 pets adopted in July, a shelter record!

Doc was one of 48 pets taken in from an overcapacity shelter, one of our transfer partners. It was one of our largest single transfers in 2023. Doc suffered from heartworm, but successfully went through treatment after being adopted by a dad who loves him very much. His new name is Champ!

Leapin' was one of many animals with special medical needs we took in because they were at risk of euthanasia in other shelters. Leapin' is a 10-year-old bobtailed cat with diabetes. He became a mini-celebrity by being the star of the show on Tampa Bay's Morning Blend. His TV spotlight helped an experienced diabetic pet owner find him!

Theo Von spent nearly four months in our care and became one of our longest residents. He is a big meatball who loves people and dogs, but despite his many positive attributes, took time to find the perfect fit. He went into foster to get a break from the shelter and was adopted by the foster's friend!

Our gala, Wags & Whiskers: Totally Pawsome Prom, was our most successful fundraiser to date!
